

Sports Premium Report 2019-20

Introduction:

Sports Premium monies are intended to be used to further physical activity in school. This is intended to improve pupil fitness, improve the standard of PE teaching, create a lifelong interest and participation in sport and/or physical activity, and to expose children to a wider range of sports and activities than might otherwise be experienced.

How we used Sports Premium:

In 2019/2020 Gnosall St Lawrence CE Primary Academy received Sports Premium of £18190.

This was used to:

- Improve teachers' subject knowledge and expertise.
- Deploy coaches and other qualified personnel to support pupils in PE lessons, along with getting children active at lunchtime clubs and after school clubs. (£7488.00)
- Help pupils with disabilities and special educational needs to overcome barriers and enjoy the benefits of sport.
- Improve fitness levels amongst all pupils, and particularly those with identified fitness related issues.
- Compete in sports festivals and competitions. (£180.00)
- Support fitness throughout the school through initiatives such as the Daily Mile and Forest School. Run activity based clubs such as cross-country, football and gymnastics. (£5492.00)
- Target activity groups led by specialist coaches for identified pupils.
- Support entry into and participation in sporting competitions and tournaments through, for example, paying or subsidising entry fees, transport costs and supplying specialist kit. (£12.00)
- Repair equipment over and above that needed for delivery of the curriculum to enhance pupils' enjoyment and experience of sports. (£217.50)
- Purchase equipment over and above that needed for delivery of the curriculum to enhance pupils' enjoyment and experience of sports. (£800.10)
- Raise the profile and benefits of being active.

We know this is effective and sustainable by:

- Monitoring fitness levels of pupils through simple practices such as counting laps completed during the daily mile with the expectation that such monitors will increase over time.
 - Monitoring participation in clubs, competitions and tournaments, including results achieved with the expectation that more pupils will compete at higher levels with more success.
 - Monitoring the use of equipment and take-up of sports thus facilitated, with the expectation that usage levels are consistently high and more pupils take up sport, including outside school.
 - Regularly reviewing our resources and their quality/usage.
 - Discussing clubs and competitions at the whole school forum to give pupils a voice and raise the profile of being active.
 - Positive parental feedback in regards to the variety of clubs offered and the impact of the daily mile.
- *Due to school closures we are carrying forward £4000.00 which will be spent on improving pupil fitness and wellbeing when children return to school in the Autumn term. In addition, we are unable to report club participation and swimming data for this academic year.*
